The Ohepen Mind
Grand Forks, ND 58201

We are a company that embraces change and invests in training our employees on new ideas and business practices. Recently we were looking for a speaker to come to our business and give a motivational message which would relate to our business. Missy Ohe gathered information about our company from our management team and tailored her presentation to our company. Missy is fantastic at connecting with people and is able to communicate business ideas to involve all who attend, Missy has been working with business owners, managers and employees for many years and will produce the professional results you are looking for. I highly recommend and will work with Missy Ohe again in the future.

Sincerely,

**Randy Boettner, Vice President
Custom Aire, Inc.**
